ABOUT US

HABC was established in 2015. This company was set out to demonstrate the highly professional skilled manpower in the field of development projects of Internal and external Cleaning Projects. We provide highly skilled professionals with extensive experience in the field of internal, External Cleaning and Civil Engineering. We've been in the business of building long enough to know Building Cleaning Inside and outside and from top to bottom.

HABC team has access to the latest in cleaning equipments, qualified staff for house Keeping, Horticulture as well as Pest Control, thereby enabling us to offer unparalleled international quality standard. Our team can handle above mentioned services internal & external areas with full back up support from our international equipment & Chemicals.

HSE POLICY

We provide a fully detailed risk assessment and method statement for each job. All abseil technicians are highly trained and qualified abseilers who carry out tasks to the highest standards on building set out by the Government's HSE guidelines for an abseiling company to follow.

QUALITY POLICY

HABC Group provides comprehensive technical services primarily for large industrial work. It places particular emphasis on the experience, expertise and reliability of its staff. The management and all who work in HABC group are committed to providing highest possible level of services in satisfying the requirements of our clients.

IRATA INTERNATIONAL

HABC culture has always been one of efficiency, quality, safety, flexibility, innovation and client services. Accreditations and approvals held by various companies in the Group include IRATA, Which demonstrate our commitment to providing clients with top-class, cost effective results.

HABC SERVICES

HABC offers a complete Rope Access services for all structures and building types. We can find the right high level cleaning solution for all properties, from commercial office blocks to residential penthouse or bespoke properties. We can find a cleaning solution which is effective on your property and most of all fits your budget. Utmost care is taken to ensure that the method or methods chosen will not cause any damage to the buildings surface, an important factor when dealing with bespoke or older properties and powder painted structure. All cleaning works are completed with the consideration of the surrounding environment and with minimal disruption to your working day ? The type of cleaning offered by Industrial Abesil rope access (abseiling) engineers are as follow:

- ◆ Window (both internal and external)
- ◆ Skylight
- ◆ Marble & Stone Fixing
- ◆ Light well
- ◆ Signature and banner
- ◆ Ceiling Fixing

ABSEILING SERVICES

A Wide range of building maintenance, abseiling allows virtually any Job to be carried out by our abseilers on any building or structures without the need for expensive and disrupted methods such as scaffolding, lifts, cradles & cranes. Since its formation.

HABC has gained a wide range of experience in buildings, working at high & difficult locations.

The use of abseiling technicians can generate saving of up to 60% compare to scaffolding companies.

Abseiling services can save 60% compared to scaffolding major savings can be made by using abseiling methods. The client is praying for the job to be done instead of access to let the job done.
